

BUDI-M-T FIST Splice/Patch

Building distribution enclosure

What is BUDI?

BUDI is a product range of compact wall mountable fiber enclosures for indoor and outdoor use. The enclosures are specifically designed for fast deployment and easy customer connection.

Available with splicing and/or patching capabilities, high connector density, small and larger footprints, they offer flexible solutions for a wide range of applications in the access network.

Features

- The BUDI wall boxes are designed to operate in category C (controlled), category G (outdoor ground level) and category A (aerial) as characterized by IEC 61753-1
- Materials are LSZH; fire retardant
- UV stable material for outdoor above ground use
- Multiple cable ports available and bottom cable seal blocks are wrap around
- Possibility to integrate passive optical components
- Removable enclosure lid
- Capacity up to 48 SC connectors or 72 LC for the BUDI-M connectors. Other connector types can be made available as well
- Compatible with pre-tailed Mini-Breakout cable
- FSASA splitter integration compatible
- Accommodates a cable loop
- Lock with key available
- Multiple accessories available to terminate and seal different cable types
